PROFESSIONAL SUMMARY

Full-stack web developer and recent graduate of Georgia Tech Coding Bootcamp. Began creating websites for a student organization and an online academic journal using self-taught skills, and has since developed the knowledge and skills to create more complex projects. Past training in philosophy provides the skills to develop creative solutions. Strong verbal and written communication skills. Works well both with a team and independently. Learns new technologies very quickly.

TECHNICAL SKILLS

JavaScript, jQuery, AJAX, Handlebars, React, JSON, Node, Express, SQL, MySQL, Sequelize, MongoDB, Mongoose, HTML, CSS, SASS, Bootstrap, WordPress, GIT, Github, APIs, MVC architecture, computer science fundamentals.

PROJECTS

***Magic: The Gathering* Collection Tracker**

Full-Stack Developer/Project Manager | Firebase, jQuery, AJAX, APIs | GitHub | Live

Stores, organizes, and searches Magic: The Gathering playing card collections for individual user accounts

Eat-Da-Burger!

Full-Stack Developer | MySQL, Node, Express, Handlebars | GitHub | Live

Utilizes a homemade ORM to create a burger logger that conforms to the MVC design pattern.

Clicky Game

Front-End Developer | React, JSON | GitHub | Live

Uses React to dynamically render clickable cards from JSON data and track user clicks
